WORK EXPERIENCE

Founder & Lead Developer

Ojas Digital Lab (2026 – Present)

- Architected and launched comprehensive digital solutions including e-commerce platforms, business portfolios, and native Android applications.
- Built highly responsive Progressive Web Apps (PWAs), such as real-time applications utilizing third-party APIs for live data fetching.

Freelance Web & UI/UX Developer

Independent Projects (2024 – 2026)

- Built interactive, highly animated website templates for schools and local businesses featuring custom UI components, galleries, and secure admin dashboards.
- Mastered frontend (HTML/CSS/JS) and backend (PHP/MySQL) architecture to build robust digital solutions from scratch.
